# REGULATIONS

**Applications.**—Applications for original establishment of service must be made on the Telephone Company's standard application forms. Requests from subscribers for additional service, equipment, etc., may be made orally or in writing, and upon approval, or installation of the service, become a part of the original application. An applicant for service must pay all previous indebtedness to the Company for telephone service before service will be furnished.

**Establishment of Credit.**—In order to insure the payment of all charges due for its service, the Telephone Company may require any subscriber to establish and maintain his credit in one of the following ways:

- (1) By furnishing references acceptable to the Telephone Company.
- (2) By providing a suitable guarantee in writing, in form prescribed by the Telephone Company.
- (3) By means of a cash deposit.

The Telephone Company may require the subscriber to increase the amount of the deposit at any time if, in its opinion, the charges billed against the subscriber are found to warrant such an increase.

Interest at the rate of not less than 5% per annum shall be paid by the Company on all deposits made for the purpose of establishing credit.

Service may be discontinued for failure to establish credit, as authorized above, within five days after the Company has served or mailed notice requiring the subscriber so to do. Where service has been discontinued for failure to establish credit as authorized by these Regulations, the regular restoral charge will be made and collected by the Company.

**Ownership and Use of the Equipment.**—Equipment, instruments and lines on subscriber's premises, furnished by the Telephone Company, shall be and remain the property of the Telephone Company, whose agents and employees have the right to enter said premises at any reasonable hour for the purpose of installing, inspecting, or repairing the instruments and lines or for the purpose of making collections from coin boxes and, upon termination of the service, for the purpose of removing such instruments and lines. Such equipment is not to be used for performing any part of the work of transmitting, delivering or collecting any telephone message where any toll or consideration has been or is to be paid any party other than the Telephone Company, without the written consent of the Telephone Company.

Subscribers must not use or permit to be used any electrical or mechanical apparatus or device in connection with the equipment or facilities furnished by the Telephone Company without the written consent of the Telephone Company, or permit the attachment of any advertising devices, except upon the approval of the Telephone Company. In case any instrument, apparatus, or device of any kind other than that furnished or approved by the Telephone Company is attached to or connected with any part of the Telephone Company's property, the Telephone Company shall have the right to remove such instruments, apparatus, or devices or to suspend the service so long as such instruments, apparatus, or devices are so attached or connected, or to terminate the service.

**Interruptions to Service.**—When requested by the subscriber, if service is interrupted for more than 24 hours, and for causes other than the negligence or willful act of the subscriber, an allowance shall be made, at

the minimum rate for the telephone facilities and class of service affected by the interruption, for such time as the interruption continues. No other liability shall attach to the Company in consideration of such service interruption.

**Telephone Numbers.**—The subscriber has no property right in the telephone number or any right to continuance of service through any particular central office. The Telephone Company may change the telephone number or the central office designation, or both, of a subscriber whenever it deems it desirable in the conduct of its business so to do.

**Telephone Directories.**—Directories regularly furnished to subscribers are the property of the Telephone Company, are loaned to subscribers only as an aid to the use of the telephone service, and are to be returned to the Telephone Company upon request or when new directories are issued. The Telephone Company shall have the right to make a charge for directories issued in replacement of directories lost, destroyed, defaced, or mutilated while in possession of subscriber.

No liability arising from errors or omissions in the making up or printing of its directories shall attach to the company except in the case of charge listings, in connection with which its liability shall be limited to a refund at the monthly rate for each listing for the time an error or omission continues after reasonable notice in writing to the Company.

**Use of Service.**—Subscriber telephone service is furnished only for use by the subscriber, his family, employees, or business associates, or persons residing in the subscriber's household, except as the use of the service may be extended to joint users or to persons temporarily subleasing a subscriber's residential premises. The Telephone Company has the right to refuse to install subscriber service or to permit such service to remain on premises of a public or semi-public character when the instrument is so located that the public in general or patrons of the subscriber may make use of the service.

**Payment for Service.**—The subscriber is required to pay, in accordance with the Telephone Company's established tariffs, collection and billing practices, all charges for exchange service and equipment, and for all toll messages or service rendered to his station, including all toll messages on which the charges have been reversed and accepted by any party at his station. All bills are due when rendered and are payable at the Telephone Company's business offices.

In the event that any sum due (except as provided below) is not paid on or before the 14th day after the issuance of the bill, a written notice may be sent to the subscriber, calling attention to the fact that the amount is due; and, if payment is not made within seven days thereafter, the Company may deny service without further notice.

When the service of a subscriber has been denied in accordance with the preceding paragraphs, but the service has not been terminated or the order to remove the service has not been completed, if such service is restored, a Restoral of Service Charge of \$1.00 will be made. In case service has been denied, in addition to the restoral of service charge, the subscriber will be required to pay all service charges up to the time of restoral of service. Subsequent to the completion of an order to terminate the service, it will be reestablished only upon the basis of a new service application.

# INFORMATION ABOUT TELEPHONE SERVICE

## How to Use the Telephone

When using the telephone speak distinctly in a moderate tone of voice.

To recall the operator on a Common Battery telephone (one where you signal the operator by merely lifting the receiver from the hook) on a connection, move the receiver hook up and down slowly three or four times.

On a Magneto telephone (one where you signal the operator by turning a crank) if you wish to recall the operator hang up the receiver and give the crank one quick turn.

## Party Lines

All subscribers on the line have equal rights; for that reason calls should be reasonably limited in length of conversation. To make for efficient service and to prevent annoyance to others on the line the following rule should be observed:

When you wish to call, remove the receiver and listen. If the line is in use, restore the receiver carefully and quietly to the hook and wait for those using the line to finish.

Always answer your own signal. If there is any confusion about the rings, report the facts promptly to the Chief Operator.

## Telephone Service Calls

Call "Information" for names not listed in this directory.

Call "Chief Operator" to report unsatisfactory handling of your calls.

Call "Repair Service" when your telephone is out of order.

Call the Business Office, 9981, for all matters relating to new telephone service, removals, termination of service, directory listings, adjustments of accounts, collection of bills, etc.

## Telegrams by Telephone

You may telephone telegrams, cablegrams or radio-grams to the Western Union Telegraph Company.

When calling the telegraph company follow the instructions shown under its listing in this directory.

By arrangement with the Western Union Telegraph Company, the charges for telegraph messages sent by telephone will appear on your monthly telephone bill. On messages telephoned from public coin box telephones, you will be requested to deposit the telegraph charges in the coin box.

# INFORMATION ABOUT OUT-OF-TOWN CALLS

Wherever possible, please Call by Number when you telephone out of town, whether you wish a specified person or will talk to anyone who answers. If you do not know the number, the Long Distance operator will supply it. Please make a note of it for future use.

### Out of town calls are of two general classes:

**STATION-TO-STATION CALLS**—such calls are for ANYONE WHO ANSWERS at the distant telephone.

To place a Station-to-Station call ask for "Long Distance." Give the Long Distance operator the name of the place and the telephone number you are calling as, "Detroit, Michigan, Cadillac 9900." If you do not know the number, say, for example, "Detroit, Michigan, anyone at the residence of John Brown, 4000 Highland Blvd." Then if you are asked to hold the line understand that your number will be requested while the call is being completed at the distant place.

Station-to-Station rates are lower than Person-to-Person rates. These rates are reduced between 7 P.M. and 4:30 A.M. (Night Rates) and all day Sunday if the initial period rate exceeds 35 cents. The time of day at the originating point when conversation starts determines whether the Day or Night rate applies.

Charges begin when the distant telephone is answered.

There are no Report Charges on Station-to-Station calls except on Collect Calls when conversation does not take place the first time the distant station is reached.

**COLLECT CALLS**—If you ask the Long Distance operator at the time the call is placed, she will try to arrange to have the charges billed to the called party. This can be done on Station-to-Station or Person-to-Person calls without additional charge, except that Special Collect rates apply to Station-to-Station Collect Calls where the initial rate is 20 cents or less.

If the called party refuses to accept the charge, a Report Charge will be made unless the call is then completed as a paid message.

The billing of charges to the called party is not permitted on calls to points in Mexico nor on Overseas calls.

## RATES TO SOME OUT-OF-TOWN POINTS

The following table shows the Day Station-to-Station rates to some out-of-town points frequently called from Moline. The initial talking period in all cases is three minutes with the exception of station-to-station rates of 25c or less where the initial talking period is five minutes.

Blue Island .....	\$0.30	Grant Park .....	\$0.10
Champaign .....	0.50	Kankakee .....	0.10
Chicago .....	0.45	Watseka .....	0.25
Danville .....	0.50		

For rates not shown in this schedule, or for other information regarding toll connections call "Long Distance."

*The rates herein stated are the legal rates of the Company as of May 3, 1938*

# HOW TO USE THE DIAL TELEPHONE

## I.

### Obtain the Correct Number

Before making a call, be sure that you have the correct number as listed in the current telephone directory. If the desired person or firm is not listed, dial "O" (Operator) and ask for Information. When Information answers, ask for the number.

## II.

### How to Dial

Assume that the number desired is "7251."

1. Remove the receiver from the hook and listen for the dial tone, which is a steady "humming" sound.
2. After the dial tone is heard, place the finger in the opening in the dial through which the figure "7" is seen and pull the dial around until the finger strikes the stop.
3. Release the dial and allow it to return to rest WITHOUT INTERFERENCE. This is very important.
4. Proceed (as in steps 2 and 3 above) in the same manner with the figures "2," "5," and "1," in the order in which they appear in the directory.
5. If it is found before the dialing is completed that an error has been made, or if the finger slips from the opening while dialing, the receiver should be hung up. After a few seconds remove the receiver, and when the dial tone is heard, dial the complete number.

## III.

### "Ringing" and "Busy" Signals

Either the "ringing" or "busy" signal will be heard within a few seconds after you complete dialing. The "ringing" signal is an interrupted "burring" sound. If after hearing this signal repeated for a reasonable length of time you obtain no answer, hang up the receiver.

The "busy" signal is a "buzz-buzz-buzz" sound. If you receive this signal on succes-

sive attempts to place a local call, verify to see if the called number is that of a party on your line as outlined subsequently in Section V.

## IV.

### What to Dial

**For local calls**—Dial the number as listed in the directory.

**For calls to Momence and other out-of-town points**—Dial "O" (Operator) and give the call to her.

**For information**—Dial "O" (Operator) and ask for "Information."

**To report trouble**—Dial "O" (Operator) and ask for "Repair Service." Explain the nature of your trouble.

#### Emergency Calls

To report a Fire—Dial 2121

To call the Police—Dial 2341

**Fire and Police calls** may also be made by dialing "O" (Operator) and asking for the Fire Department or Police. Hold the line and she will connect you with the proper party.

**For assistance and in emergencies**—Dial "O" (Operator) and ask her to help you.

**For applications for service, moving of telephones, bills, etc.**—Dial "O" (Operator) and ask for the Business Office.

## V.

### Party Line Calls

A. To determine the other numbers on your line.

1. If the first three figures of the desired number are the same as the first three figures of your number, you will know that this telephone is on your party line. For example: 7351 is on the same line with 7352.

B. To call another number on your line.

1. After you have determined that the subscriber desired is on your party line dial "9" and then dial the last figure of your number and the last figure of the called party's number. For example: Suppose your number is 7351 and you are calling 7352, you would dial 9-1-2.
2. After you have finished dialing hang up your receiver to allow the other party's bell to ring. Your bell will also ring at intervals, indicating that the other telephone is ringing.
3. When ringing stops you will know that the other party has answered. Remove

# HOW TO USE THE DIAL TELEPHONE—continued

your receiver and proceed with conversation.

4. If your party does not answer within a reasonable period, remove your receiver momentarily in order to clear the line.

## VI.

### How to Make Calls from Coin Box Telephones

To call a local number:

1. Remove the receiver from the hook, but do not deposit coin.
2. Listen for the dial tone.
3. Dial the number wanted.
4. When the called number answers, you will hear the dial tone again, then deposit coin PROMPTLY.

To call Momence and other out-of-town points:

1. Remove the receiver from the hook, but do not deposit coin.

2. Listen for the dial tone.

3. Dial "O" (Operator) and give the call to her; deposit coin when the operator asks for it.

## VII.

### Other Dial Service Hints

1. Do not answer your telephone while the bell is ringing. Pick up the receiver only between completed rings.
2. On party lines or on lines with extension telephones, if you lift the receiver and hear a series of clicks it indicates another party is dialing and that you have interfered with his call. Wait until he has finished dialing, then tell him that you have interfered, and ask him to dial over again. Unless you do this, he may not know why the call did not go through. The next step is to hang up and wait until the line is not in use.
3. Do not hang up the receiver when calling some one else to the telephone.

## *We Ask Your Co-operation*

Please do not place your telephone instrument where it may accidentally be knocked to the floor. Precaution on your part will avert serious damage to the instruments and wiring and enable us to keep your service at peak efficiency.

## **Station-to- Station Calls**

—meet almost every requirement of Long Distance telephone service and the rates are about 20 per cent lower than for person-to-person calls. Night rates are still further reduced.

**ILLINOIS BELL TELEPHONE COMPANY**
